Flexible Payment Method Contract

If you don't like the sound of having to pay for the activation charge and hardware costs in one lump sum then Suffolk Online has provided a special flexible payment method facility where you can spread these costs over 12 months by signing up to a contract. You don't need to do anything. Should you cancel during this 12 month period then you will be liable to pay the remaining monthly subscription charges, activation charge and hardware fees left on the contract. Please complete all the following fields and send to the address in the top right hand corner. We will then process your order and write to you confirming the amount you will pay each month.
